

Runway Program

- Airfield meets FAA design standards, allowing commercial service to continue, without the runway it would have been lost
- Improved airport's reliability during inclement weather (reduced cancellations)
- Improved consumer confidence – making PUW the Airport of choice
- Enhances support of corporate aviation and connection to global business
- Improved service, facilities and reliability to support the regional economy

Terminal Program

- Provides adequate space to accommodate existing passenger demand
- Supports anticipated passenger growth and additive air service opportunities
- Provides welcome center which is representative of the Palouse
- Enhances customer experience and assists with passenger retention
- Improves employment, education, and tourism opportunities requiring national and international transportation connectivity
- Flexible design to grow with the region over time
